

# ***DNA Technology: Where we've been, where we are, and where we're headed***

*Wednesday June 26, 2013  
Meat Animal Research Center, Clay Center, NE*

## ***Wednesday June 26, 2013***

- 11:30-1:00** Lunch at the Meat Animal Research Center, Clay Center, NE  
**1:00-1:20** Welcome and Audience Survey
- 1:20-1:40** Current State of Integrating Genomics into National Cattle Evaluation– Matt Spangler, University of Nebraska-Lincoln
- 1:40-2:00** New Genotyping Platforms- Elisa Marques, GeneSeek a Neogen Company.
- 2:00-2:30** What Do We Hope to Learn From Sequence Information? Larry Kuehn and Warren Snelling, US Meat Animal Research Center.
- 2:30-2:50** BREAK
- 2:50-3:20** Genomics of Bovine Respiratory Disease: An Update—Alison Van Eenennaam, UC Davis
- 3:20-4:10** Life-cycle Analysis of Beef Production-Kim Stackhouse, National Cattlemens Beef Association
- 4:10- 4:40** Improving Beef System Efficiency: A genetics perspective- Bob Weaver, Kansas State University
- 4:40-5:00** Genomic Predictors of Feed Efficiency – Matt Spangler, University of Nebraska-Lincoln

**Meeting Adjourn 5:00pm**

Contacts:

**Matthew Spangler**, A218h Animal Science Bldg, University of Nebraska, Lincoln, NE 68583-0908, (402) 472-6489, [mspangler2@unl.edu](mailto:mspangler2@unl.edu)

**RSVP by June 10 to Terri Behl ([tbehl1@unl.edu](mailto:tbehl1@unl.edu); 402-472-6411). Registration fee is \$10 and includes lunch and all handout material.**
